Digital news platform, FLASH, set to launch in next month

We are excited to announce the upcoming launch of our new digital news app. After two years of development, *FLASH*, is set to launch later in November. The app offers up-to-date content, live updates, engaging interactive features. Giving you all the news in the palm of your hand.

To further support you, we are hosting a Digital Reporting Workshop next week. This workshop will focus on the latest tools and techniques in digital journalism. As we prepare for this digital addition, we invite you to explore the app and its features this November.

Message from the Editor

"I'm so excited for you all to read this circulation. I can guarantee you it was crafted with love. I hope you love these stories as much as we do!"

Mysterious Crop Circles Baffle Farmers

By: Simon Paul, Staff Reporter

OLDTON COUNTY, Kansas - a series of eerie crop circle have appeared overnight in the fields of Oldton County, leaving farmers and residents concerned. The patterns have caught the attention of local law enforcement. Local Farmer Joe Durt was the first to discover the circles early Monday morning. "I couldn't believe it," Durt said. "I've been farming here for 30 years and have never seen anything like this."

"I've been farming here for 30 years and have never seen anything like this."

— Joe Durt
